

This Tutorial is explain step by step To Earn more coin or money by cheat in bet at stadium in Petsociety facebook application
firt of all you need tools.

1. Firefox (Browser)
2. Cheat Engine 5.5 ==>http://cheatengine.org/
3. Safe betting ==> by SpYkE
4. Adobe Flash player 9.0.124.0
5. Adobe Flash player Uninstaller

All necesery file you can find in download section here.

Prequisition

A. make sure your flash player version is 9.0.124.0, if not use Adobe Flash player Uninstaller to uninstall your current

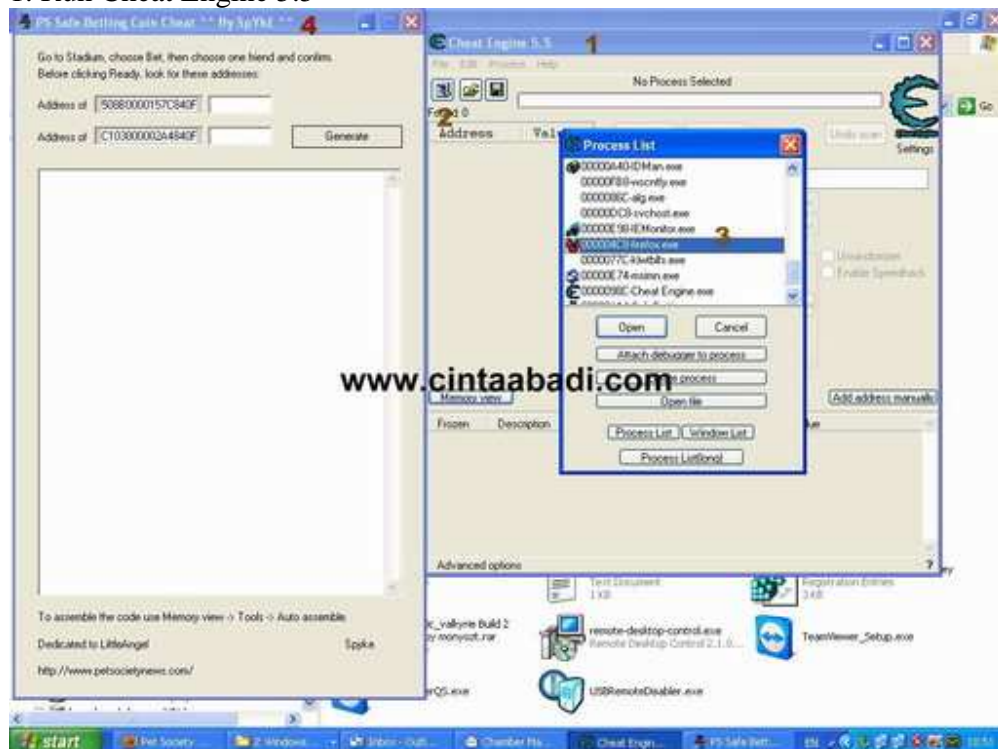

version then install Adobe Flash player 9.0.124.0

B.login to your facebook dan use play pet society => go to stadium => then bet, Place your bet you desire 5 is recomended

then select your player, Don't Press Ready yet. Now We are going ready to hack... ;)

Follow this methode Step By Step

1. Run Cheat Engine 5.5

2. Press Computer Icon to bring process list

3. from list select firefox memory address
4. Run SafeBetting
5. Klik new Scan

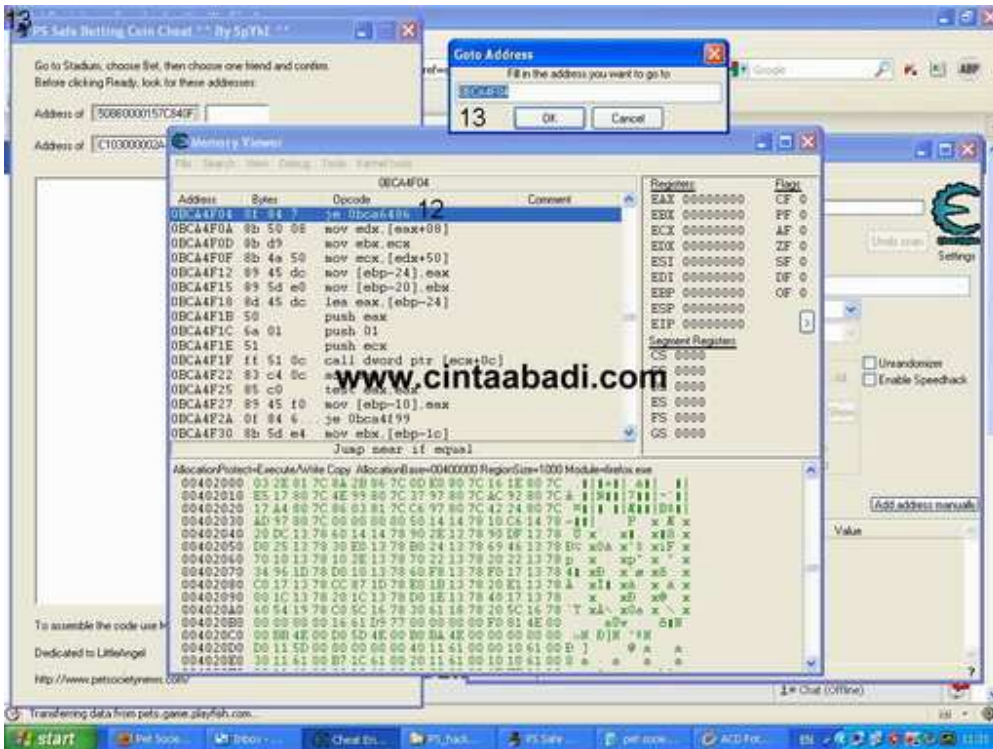

6. Mark Hex
7. Copy 508B0000157C840F from SafeBetting (from row 1) paste to value row
8. Select Exccat Value
9. Select 8 bytes then Click new Scan
10. Result Round memory address block

11. Right Click then select "Disassemble this memory region"

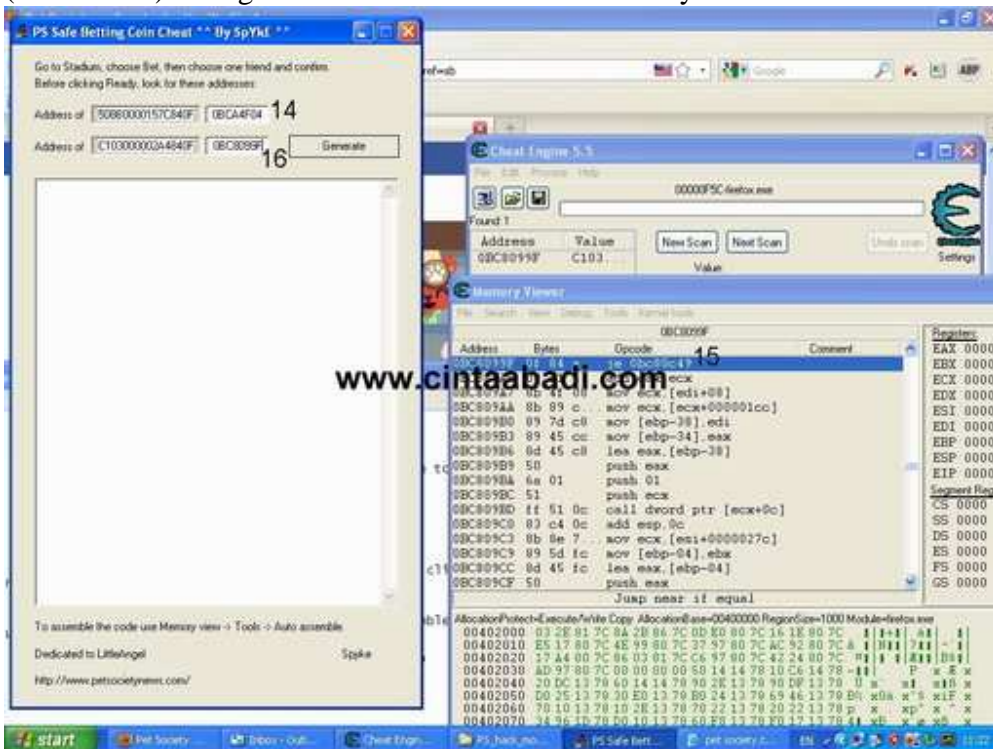

12. Select the row then Right click then select "go to address"

13. copy the value

14. Back To SaveBetting program, Paste there in row 1

15. Repeat step 7 until step 14 but now the value is C10300002A4840F SafeBetting (from row 2).after get the value don't close the memory window.

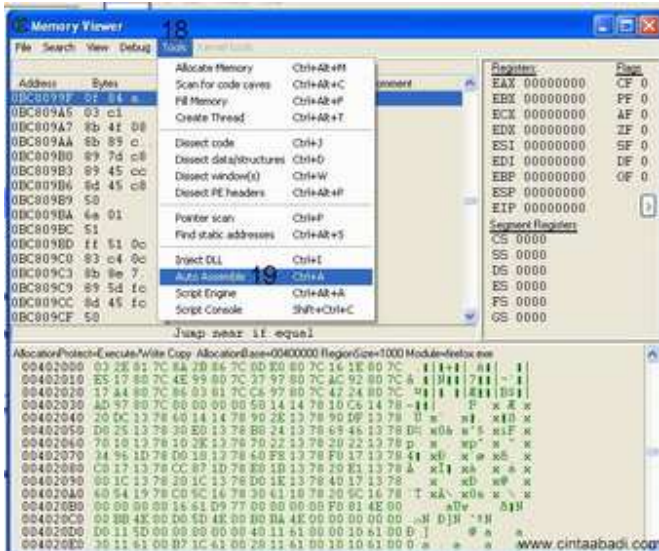

16. mean while Paste the value to SaveBetting program

17. then click generate, then copy the all the code from the text box list.

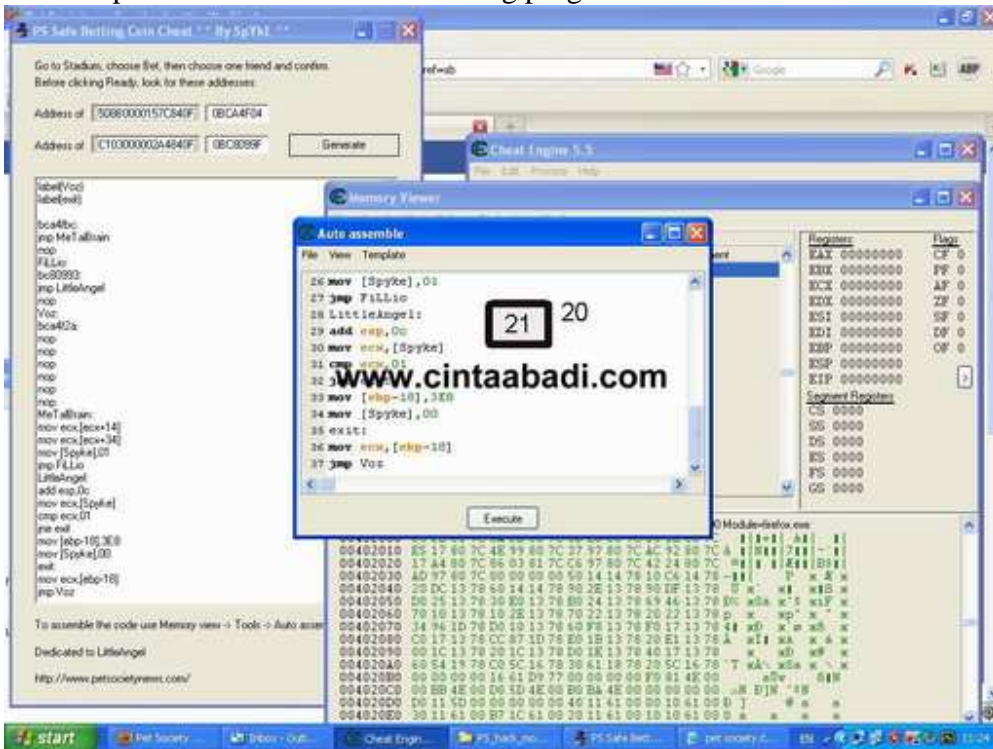

18 Back to memory viewer window then select Tools

19. Select Auto Assemble

20. then paste the code from SaveBetting program

21. Then the last step click execute to inject into memory.

Finalizing

- A. Back to your Petsociety stadium again then click ready.
- B. What Ever you win or lose bet , This Hacking Methode will bring you 9999 Point point . :)
